

`boost::enable_shared
_from_this< Connection >`

`boost::noncopyable`

`kisscpp::Connection`

The diagram illustrates the inheritance of Boost traits by the `kisscpp::Connection` class. A central box labeled `kisscpp::Connection` has two arrows pointing upwards to trait boxes. A blue arrow points to `boost::enable_shared_from_this< Connection >`, and a red arrow points to `boost::noncopyable`.
